The Leadership Institute Seminar:

**Creatively Speaking:**

*Fostering Creativity in the Classroom*

Presenter: James Wells

How can schools increase creative capacity and improve culture and climate? Arts integration is a powerful strategy to impact student learning, increase family engagement and cultivate a collaborative school culture. When school teams work collaboratively to integrate content and creative approaches, it weaves a common thread across the curriculum to reach diverse learners and make global connections with families. Participate in this institute to engage in essential questions, collaborative discussion and reflection that will culminate in making your thoughts visible through a hands-on activity.
