## The Leadership Institute Seminar:

### *Mixed Messages: The Changing Face of Discipline* (Virtual)

Presenter: Dan St. Romain

Although behaviors in the school system have changed a great deal in the past few decades, our strategies for supporting those behaviors have not. By examining information learned about the brain, we are in a better position to understand how to best create long-term behavior change in our students. In this interactive session, participants will learn nine principles for positively shaping student behaviors. The information in this training has specific implications at both the classroom and school-wide levels, complements PBIS/behavioral RTI efforts and is applicable for pre-K through high school.

To receive credit for this event, you are required to participate in **one of the sessions below**. If you are not able to attend the session live, a recorded version will be made available following the event. Due to the interactive nature of these sessions, live participation is encouraged. Access to recordings will be sent to all registrants following each day's live session.
